# What is the Airflow Summit?

Airflow Summit is a digital event for users and members of the Apache Airflow community. Apache Airflow is one of the most popular open-source data engineering projects. This event is a unique opportunity to contact with fellow Airflow users, and to hear from experts about how they have built enterprise-scale solutions with Airflow.

Attendees and sponsors will have a chance to virtually network with the core developers of the project, connect and learn more from global companies building solutions with Apache Airflow, such as Google, Airbnb, Lyft, Astronomer.io, and many others.
