Leveraging Open-Source Projects For Personal Development

Ephraim Anierobi
Committer & PMC member of Apache Airflow
Software Engineer at astronomer.io

Agenda

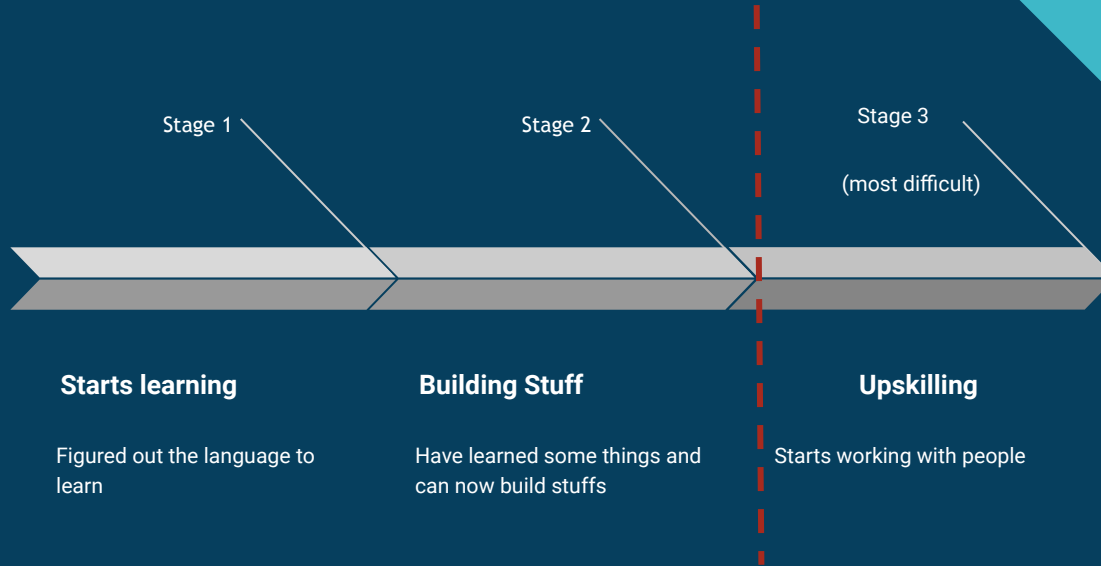

- Why open source?
- Self-Taught Programmer Journey
- Upskilling with open-source
- Challenges

Why Open source?

And what really is open-source software?

- About open source
- Freedom
- License
- Diverse Community
- Mentorship

Self-taught programmer journey in stages

Getting to stage 3 (working with people)

Upskilling with open-source

- Commitment
- Consistency
- Mentorship
 - Opportunities: Outreachy, Google Summer of Code(GSoC), etc
- Learn people skill
- Review PRs

Challenges and how to overcome them

- Impostor Syndrome
- Feeling low due to many reviews
- You can introduce a bug

Questions?

Thank You
